

# Jiemba & Friends

Decorate your own boomerang. *Ready for a challenge?* Cut it out and have an adult help you find things to glue on. Consider feathers, leather, twigs, or pieces of fabric. Paint is also a fun addition.

## Did You Know....

Boomerangs are considered to be one of the earliest flying machines invented by humans. Historical traces of boomerangs have been found throughout the world, not just in Australia. Ten-thousand-year-old Australian Aboriginal boomerangs have been found, and even older hunting boomerangs have been discovered in Europe. King Tutankhamen of Egypt even had a large collection of boomerangs.
